

Modern challenges in people with complex epilepsy and associated co-morbidities conference

Thursday 7 May 2009 Leeds Metropolitan University

Leeds Metropolitan University, NeuroEducation & Epilepsy Action will be working in partnership to deliver this one day conference.

This conference provides a unique opportunity to promote a deeper understanding of:

- Autism Spectrum Disorder and Epilepsy in Children
- Management of myoclonic seizures in adults including the learning disability population
- Behavioural issues or temporal lobe seizures: differential diagnosis
- How to make syndromic diagnoses in adults with learning disabilities

**You can either attend the conference or watch online.
Full details are on the attached booking form.**

www.leedsmet.ac.uk/health

Day Conferences 2009

Modern challenges in people with complex epilepsy and associated co-morbidities

Booking Form

PLEASE TICK THE RELEVANT BOX:

- I would like to reserve a place to attend on the day (May 7th) and enclose a cheque for £70
- I would like to reserve a place to watch online between the 21st-23rd of May inclusive and enclose a cheque for £50
- I cannot attend or watch online this time, but please tell me about future conferences (only complete the details of your name, address and telephone number)

NB: Please note that if you are going to watch the conference online it is not recommended that you do this from your place of work (without checking with your employer), because your employer may not allow access to video files for security reasons and it is possible that the network will be very slow due to high usage and there could be problems with high quality transmission. You will be sent details of the internet address for viewing and your personal secure access code by post.
